ABOUT

In 2011, we established a small factory and began exploring the domestic fabric market. Our unique geographical location gave us an advantage in producing silk. Over time, we expanded our areas of cooperation and eventually, we launched the brand **Chantru Tex**, using this brand to open the door to the international market. Today, we have become a trusted supplier to many domestic and international brands.

AdvANTAgeS

NATURAL: Biodegradable fiber that is eco-friendly and gentle on the skin

COMFORTABLE: Featuring a smooth surface and a soft, delicate texture that feels gentle against the skin

PROTECT: The sericin in silk can block some UV rays, thereby protecting the skin.

PREMIUM: Pearl-like luster, gives it a more luxurious touch

O U PRODUCT

Every inch of our fabric is crafted from the finest natural mulberry silk. Through high-twist weaving techniques, the fabric achieves a flawless density, a soft pearlescent sheen, and a texture as delicate as a second skin
